

# DELOREAN ANAEROBIC DIGESTION ENERGY FACILITY

<b>Occupier:</b>	DeLorean Energy
<b>Location:</b>	1-2 Gidgie Court, Edinburgh SA 5111
<b>Description:</b>	Waste to Energy Anaerobic Digestion Plant
<b>Declared Value:</b>	\$33 million

## Key details:

- The plant will be the biggest of its kind in the southern hemisphere, taking 125,000 tonnes per annum of food waste and agricultural by-products and producing equivalent of 8MW of renewable electricity and gas.
- The energy will supply the electricity grid and mains gas network, but can also be used to supply power and heat to the Edinburgh Parks commercial estate tenants.
- Planned to be operational by March 2021.
